

ICCROM RECORDS AND ARCHIVES

ABOUT RECORDS AND ARCHIVES

ICCROM's **Records and Archives** help us **stay accountable** to our **Member States**.

Records are created, organized, maintained and disposed of according to need, while **archival processing** is performed to gain physical and intellectual control over them.

This work ensures important analogue and digital records and data are **preserved** and our valuable collections remain accessible for **study and research**.

Heritage Digital Management

In **Records and Archives**, work is always being done to:

Better preserve analogue and digital records.

Improve access for heritage professionals and the wider community.

Showcase more of the Archives' hidden treasures.

Some **recent projects** are highlighted next.

ARCHIVES INVENTORY ONLINE

PERSONAL DATA PROTECTION

A **Data Protection Manual** was introduced in June 2021, comprising:

- Informative notices
- Consent notices
- Web privacy policy
- Web cookies policy
- Social media policy
- Policy for the use of IT systems and tools, and archives
- Data breach procedure

This was supported by two rounds of **staff training** in September 2020 and July 2021.
