

## **CALL FOR APPLICATIONS (APPLY BY 15 NOV 2022)**

Hello, young architects and civil engineers from Mosul!

Are you interested in acquiring skills to contribute to the recovery of heritage in Mosul? If so, you are invited to apply for a field-based training course on the recovery of the city of Mosul, organized by [ICCROM](#) in collaboration with UNESCO. The capacity-building programme is implemented by ICCROM under an international partnership agreement with UNESCO and under the umbrella of UNESCO's "Revival of the Spirit of Mosul" initiative.

The programme will be conducted in English and will include lectures and field exercises. Various modules on situation analysis, recording and documentation, damage assessment, stabilization, repairs and restoration, recovery planning, upgradation and adaptive reuse will be conducted as part of the training. The full-time training will take place at the University of Mosul from December 2022 to August 2023. Selected participants will be paid a monthly stipend to cover their daily subsistence.

Upon successful completion of the training, participants will be awarded a certificate and recommendation for employment in recovery projects carried out by UNESCO and other international organizations. Those interested may send their application to [HRPMosul@iccrom.org](mailto:HRPMosul@iccrom.org)

The call for applications is open until **15 November 2022**.

Apply now! The application form can be downloaded on the [ICCROM website](#).
